

DARK/BRIGHT

ATTACK sets the amount of gain in the preamp, allowing you to boost or overdrive the reverb. REGENERATION extends the decay and adds overtones. REGENERATION extends the decay and adds overtones; set both this and SIZE high and the pedal can run away and self oscillate. LEVEL is the overall volume of the effect relative to your original signal. The DARK/BRIGHT toggle sets the overall voice.

Holding down the HAVOC switch can create extended, seemingly infinite holds, gradual runaways or instant collapse, depending on the SIZE setting. Releasing it will return the effect to the level of the REGENERATION control.

Imagine taking the ice bucket challenge, but you're dunking yourself in dreams! Inspired by the ultra-modern line 14 of the Paris Métro and its sleek platforms of glass, steel and tile that add all kinds of cool sonic artifacts to the space, the METEORE™ (pronounced may-tay-or) is our take on reverb.

We've kept your original signal path analog and pure, while giving you overdrive and regeneration controls to take you from spring reverb sounds to something much bigger. The controls are very interactive with each other, and as per Caroline tradition, this pedal can get VERY loud. You know, something something power, responsibility, blah blah blah...

Your pedal was dreamed, designed and created at our small batch distortionery™ in Columbia, S.C. Thank you for supporting our work.

SAMPLE SETTINGS - FLAVOR TO TASTE

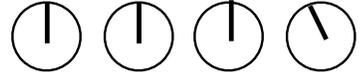

musical/personal agenda

"I left my amp with spring reverb at home, and now I have to use this crazy thing. Help."

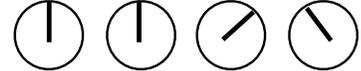

"Those SNCF announcements are quite dreamy, but now you're going to miss your train."

"This is your clean signal, accompanied by thunderclaps."

"Post-rock film soundtrack time. Gonna play simple parts and press that Havoc button down."

IMPORTANT: if you use a power supply, use only a 9V DC center negative tip power supply, BOSS PSA or equivalent industry standard units. Unplug cable from input when not in use to save battery life. Our warranty only covers component failures or manufacturing defects - it does not cover misuse or abuse of the product, modifications or unofficial repair work.

SAFETY & ENVIRONMENTAL NOTICES

This device serves as an effects device for processing instrument signals. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

This product is designed to be powered from a 9VDC >100mA power supply with 2.1mm center-negative barrel connector. Use of an incorrectly rated power supply could result in damage to the pedal and the power supply.

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Ensure that children do not detach any small parts (e.g. knobs or the like) from the product. They could swallow the pieces and choke! Never let children use electrical devices unattended.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.

DIRECTIVES AND REGULATIONS

This product complies with Electromagnetic Compatibility (EMC) directive 2014/30/EU.

Tested to Comply with FCC Standards.

CGC has conformed where applicable to European Union's Directive 2011/65/EU on Restrictions of Hazardous Substances (ROHS) as well as the following sections of California law which refer to RoHS, namely sections 25214.10, 25214.10.2, and 58012, Health and Safety Code; Section 42475.2, Public Resources Code.

This product complies with the regulations required to hold the UKCA mark.
